

Music Workshop for 7-12 year olds

Introducing....the completely, absolutely, positively,
most definitely NOT boring MUSIC THEORY WORKSHOP ever!!

What is this workshop all about?

Learn the following theoretical concepts through super FUN games and activities.
No longer is piano theory 'Boring with a capital B'.... it doesn't even feel like learning!

- * simple chords
- * Time signatures
- * Note and rest values
- * Dynamics
- * Articulation
- * Translating musical terms

All of the musical concepts that we will learn, apply to all instruments including piano/keyboard, woodwind, strings and voice. Prior theory experience isn't essential, but would be advantageous.

Not only will you learn a whole heap of new concepts...but you'll also receive a folder full of fun music/theory based games and activities to try at home and share with your family.

Who is this workshop suitable for?

- Children who already attend piano lessons – whether with Dee or another teacher
 - Children who learn any another instrument
 - Parents who wish for their child to learn an instrument in future
- Children who show an interest in learning an instrument, but haven't started yet
- Anyone who wants to take advantage of the many benefits that musicianship can add to other curriculum areas such as maths, english, science and the arts
- ...or... as a parent...you need a time-out for yourself, and a fun activity for the kids!!!
 - Oh.....and.....7-12 year olds who like to have FUN!

SUNDAY 16th JUNE 10.30am - noon

Workshop held in Sellicks Beach. Cost is \$30 per person

Save your spot now:

Simply send your name/child's name and the date of the workshop you wish to attend, to Dee by ringing or texting 0419 035 344. You will then receive all payment info, address and other details by return text.

Workshops will go ahead when the minimum number of three students have booked in.
